

CHRIS-CRAFT STINGERS

Welcome to the September, 2013 Newsletter!

This past month has been a busy one in terms of Stingers being added to the registry. Sixteen Stingers have been added to the registry bringing the total to 621. This is a relatively large number of Stingers added to the registry compared to the previous months. As the boating season is winding down owners are listing their Stingers for sale.

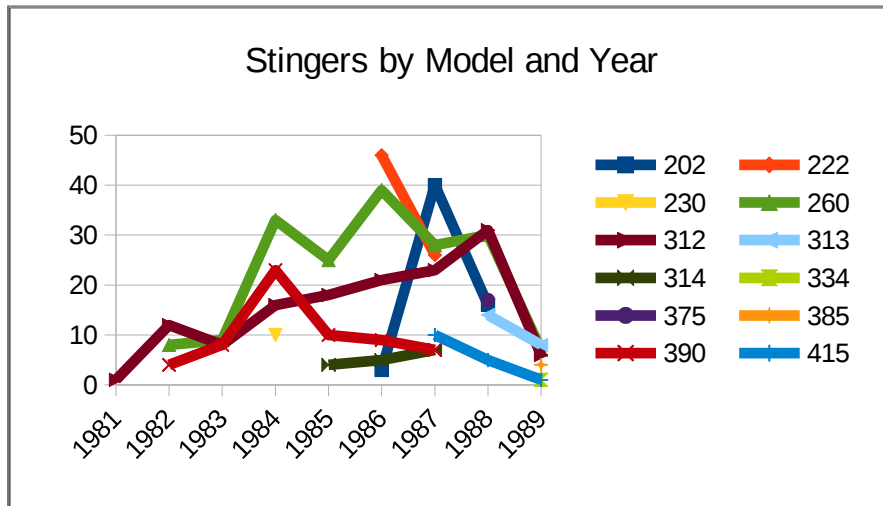

Two special Stingers were added to the registry this month. The first is a center console Excalibur 310 (which would later become the Stinger 311s) with a hull number that indicates that it was the 3rd Excalibur 310 built by Chris-Craft.

The second special Stinger added to the registry is a 312 Competition Series boat. Up until now, I only knew of one 312 Competition in existence. I found this second one in an old listing. I only have one picture of this second Competition Series and very little information on it, but at least I have confirmation that a second one existed.

In addition to adding the Stingers to the registry, I've added more

information regarding Stingers to the history page. Specifically, I've been doing some research on Chris-Craft itself and have found information on Stingers Chris-Craft brought to boat shows in the early 1980s. To see these changes, and the new boats in the registry, please head on over the website!

Of course, the graph also shows that the 260s were the most popular Stinger built over the course of their lifetime. But, for me, what's even more interesting is the steadily increasing sales of the 312s. The data shows that the sales of the 312s don't seem have the same year-to-year swings as some of the other Stingers.

The numbers in the graph are based on the boats in the registry - not on the actual boats sold. But I feel that the relative numbers are close to the same.

Of course, I continue to try and add more Stingers to the registry, and as

Until next month,
Han

I do I will continue to refine the graph.

Stingers by Model and Year

One of the reasons I started the registry was to try and figure out just how many Stingers were built by model and year. On this page is a graph that breaks down the Stingers by model and year. By graphing out the data, one can notice a few things about the production of the Stingers. For example, it looks like 1984 was a good year in terms of the increase in number of Stingers built. And, while the 202s and 222s were the smallest of the Stingers, they were also the most popular Stingers for 1986 and 1987.

1987 Chris Craft Stinger 42ft. Mercruiser twin 496 engines, Myco trailer, deck awning, head, 3 batteries and fiberglass hull. We purchased the boat as a hull then totally restored it about 10 years ago. About 6 years ago we installed two new 496 magnum merc cruiser engines with currently about 200 miles. We rewired the entire boat about 3 years ago. This season we replaced the manifolds So the boat has been maintained and is in good working order I would characterize the finishes of the boat as "worn around the edges" but as hinges and snaps corrode we replace them The boat has a working head & shower Galley/ microwave/ref/sink TV stereo/cd/sat system/ ipod dock deck compass GPS

Model: 1988 202
Location: Rochester, NY
Asking Price: \$8,000

I have a super rare 88' chris craft stinger 202 for sale. It has 165 hours on the hull. This boat is like brand new. I literally just finished it. This is the coolest fiberglass speed boat that Chris Craft ever made and was made for the Miami Vice tv series. They were built in very limited quantities and there are only a handful of these left. There is a website dedicated to them, I know of no other boats that have a cult following. I built this one to be better than it was originally. It is an attention grabber. I get compliments on it wherever I am and have had numerous offers on it even before I restored it. I'm selling it because I'm getting married and need the money. I just put well over \$7500 into it this summer alone and have well over 12K into it total. I had planned on using it but sadly it needs to go. Weddings are insanely expensive and I'm finding out the hard way. I replaced the motor and outdrive. It has an OMC 4.3L v-6 and an OMC cobra outdrive. Next, I gutted the boat completely and installed new marine ply, fiberglass, carpet, custom built seats and engine cover and had everything professionally upholstered. I installed a new GT steering wheel, a Sony marine cd/mp3/satellite radio which sounds awesome, a new bilge pump, new fuel lines, new aluminum swivel/slider/adjustable height seat posts and new Tracker style folding seats. The interior work cost over \$4K alone but was well worth it. It came out awesome. I had a 4bbl. Rochester carb installed which brings the HP up to 205 and will do over 60MPH. I had the pin striping re-done on the boat and matching Shorelandr trailer. I replaced the tires, lights, and started to strip and repaint the entire trailer. It also has a new deep cycle battery. There are 2 swim platforms molded into the stern that have teak foot boards and they were also refinished and look great. I also just purchased a new trailerable cover for it. I even just filled the tank with ethanol free 93 octane fuel. I'm probably forgetting a lot. If you're interested you must include the words eighty-eight chris craft to get a response due to spammers. I know it's the wrong time of the year to sell a boat and I could get more for it this spring which is why I priced it where it is. It is well worth the money. Chris craft builds the very best boats around and this one is better than new.

Chris Craft Stinger 202 is a rare (in Sweden) classical motorboat. The cockpit contains three comfortable seats and the driver sits MIDDLE. amazing feeling to run when sitting near the water and the boat is quite broad. Very fine seakeeping - can not compare with a regular day cruiser - highs around 45 knots. Everything is original! The chapel is new since two seasons. motor is a Mercruiser V6 with 185 hp - 490 hours total run (original). Completed in shipyards in 2012 after the boat stood in a heated garage for 9 years. The front compartment is empty, which makes the boat easier (space available for such water skiing). trailer (30 km / h) are available. boat is very nice and should even in the future, have a serious owner.
