WWW.CHRISRAFTSTINGERS.COM Newsletter, May, 2012

Welcome to the May, 2012 Newsletter!

Welcome to the May 2012 newsletter. Every month I wonder just how many Stingers I will see that I have yet to document. I fear that one month I will have no more Stingers to document. I've been pleasantly surprised however to find that as the whether picks up, so does the listing of Stingers. There are now 476 Stingers in the registry – an increase of 14 from last month.

I will, of course, continue my search for Stingers to add to the registry, and to better document the ones already on the list. My goal is to document every remaining Stinger. I'd like to be able to catalog all of them to get more accurate numbers on just how many Stingers were built by model and year. As always, if you have any info on a Stinger, please feel free to send it my way.

390X Mystery

Long time readers of this newsletter will recall a series of articles that appeared in the first issues. These articles dealt with the wealth of

information a hull number can provide regarding a particular boat. One of the pieces of information it

Stinger 390Xs on the website (out of an estimated total of 223 built). Of these 53, I have 16 hull numbers.

Looking for an owner's manual? Check out the parts page today at www.chrisraftstinger.com/parts.html for owner's manuals and more!

The interesting information that these hull numbers provide is where the 390Xs were produced. According to the hull numbers, up until approximately February, 1984, the 390Xs were built in Bradenton, FL. Then, from approximately February, 1984 to June, 1984 the hull numbers indicated that the 390Xs were produced in Gallipolis, OH. After June, 1984, the hull numbers indicated that the 390Xs were again being built in Bradenton, FL.

provides is the location of the factory that built the boat.

During the 1980s, Chris-Craft had many production facilities producing Stingers. These included Bradenton (Sarasota), FL, Bellingham, WA, and Holland, MI. Most Stingers were built at the Bradenton plant. This facility was built in the late 70s/early 80s specifically for Chris-Craft's sport boats.

Currently, there are 53 documented

So, what's the big mystery? Chris-Craft doesn't seem to have had a boat producing factory in Gallipolis, OH. Chris-Craft did operate a plant that manufactured engines in Gallipolis, but this was shut down by the 1980s. I asked Ernest J Schmidt, ex Chris-Craft president, about this as well and as far as he recalls, there never was a boat producing facility in Gallipolis.

So, the mystery is, why do some of the hull numbers for the 390Xs show them being built in Gallipolis, OH? No other hull numbers for

So, the mystery is, why do some of the hull numbers for the 390Xs show them being built in Gallipolis, OH? No other hull numbers for

Stingers show them as being built in Gallipolis. Was this a mistake? Or did Chris-Craft build the 390Xs in Ohio for a short amount of time? Unfortunately, at this point, I don't have the answer. But rest assured

I'm trying to figure it out. I have two leads I'm following with in order to get more information about Chris-Craft's operations in Gallipolis. Han

That's it for this month's newsletter

We rewired the entire boat about 3 years ago. This season we replaced the manifolds So the boat has been maintained and is in good working order I would characterize the finishes of the boat as "worn around the edges" but as hinges and snaps corrode we replace them The boat has a working head & shower Galley/ microwave/ref/sink TV stereo/cd/sat system/ ipod dock deck compass GPS

This is a 1988 Chris Craft stinger. It has the original OMC 4.6L V6. it has about 820hrs. It is in good condition, it had a tune up at the end of the season to tighten up some belts, etc. These pictures are old, but the boat is currently winterized, so I can't get any current ones. You would not believe the attention you get for this boat. In addition to being bright red, it is a Chris Craft, these boats are instant classics and extremely well built. The Stinger line is famous because the original pilot of Miami Vice featured the 39' version of this boat. I have to sell because I'm looking at buisness school, and I won't have time for the toys. I have a great arrangement for moorage in lake washington as well, in a marina, on a boat lift, for \$225/month. We can talk about transferring the lease. This price comes with the boat trailer and accessories, lines, fenders, extra aluminum prop, etc. If you would like to see comparable sale prices or find out more about the history of these boats, check out www.chriscraftstingers.com this boat is on the registry there at: Seatle 202 Gallery

I have a 1988 Chris Craft Stinger 260 with twin 350 mercruisers in turnkey condition. Very dependable and economical boat to run. Overall the boat is in good condition, mechanically sound just needs some cosmetics. Boat has a great ride and a cuddy big enough for two or three. Most of the interior is new the tops of the bolsters show signs of age, it has your normal scratches and nicks that goes with a 24 yr old boat. Trailer is a 1999 Myco trailer which could use a little TLC, but functional. Boating season is around the corner. Make an offer, need to sell asap.

This is a very clean 1987 Chris Craft Stinger 260 on a 1995 Performance Trailer. This boat has been maintained with an open checkbook and it shows. The 350's have approx. only 40 hours on them, high rise Edelbrock intakes that are near new. This boat cruises at 3000 rpms or 35-38 mph with a top end of near 70 mph. It has a CD player, bolster seats, huge sundeck, refrigerator, swim platform with ladder, 2 stainless steel props. This one is ready for the water. It does come with a custom cover, however, it is age delicate and could be replaced. Really nice boat - Must see to appreciate it!
